July 13, 2007

To whom it may concern:

I have worked with Kinetics for about a year now. They are an excellent biomedical program which exhibit outstanding personal and professional integrity, trustworthiness, and excellent leadership skills one would value as an asset in the healthcare profession. Kinetics personnel present with high moral values and dedication to the profession. They work tirelessly to serve Bolivar Medical Center and demonstrate dedication to the facility in which they are working. Their attention to detail and work ethics are remarkable. They take each challenge they face and turn it into an opportunity for improvement. They are always available and willing to help when the need arises and has saved us countless dollars which is an absolute plus.

With this I recommend Kinetics to you with my highest regards,

JoAnn McCollum RN, C
Chief Nursing Officer
Bolivar Medical Center
Cleveland, MS 38732
